

# Richard C. Staab, D.O. Memorial Symposium

**April 3 - 4, 2020**

Dear Registrants for Staab Symposium 2020,

In keeping with the CDC's guidance, released today, which recommends the postponement of any gatherings of fifty or more people for the next eight weeks, the live presentation of the 2020 Richard C. Staab D.O. Memorial Symposium will be presented via webinar. It was a very tough decision for the planning committee to make as this conference not only provides the 16 hours of AOA Category 1-A CME credit required for licensure but, perhaps more importantly, brings friends and colleagues together to celebrate Dr. Staab's commitment to exemplary education which improves our ability to provide excellent patient care. Fortunately, we will be able to meet our commitment to you and to our speakers by providing this virtual conference. The planning committee is grateful for the support of our host and accreditors which will enable us to provide the same, high quality education that you have come to expect from this event. This virtual activity will meet the AOA's requirements for Category 1-A credit as well as the Oklahoma State Board of Osteopathic Examiners requirements for one hour of opioid prescribing education.

To enable our continued planning for the webinar format:

- Please confirm by reply to this email that you want to participate in the Staab Symposium 2020 via Zoom Webinar **NO LATER THAN Friday, March 27, 2020.**
- If you do not wish to attend the conference virtually, we will be happy to roll your registration fee over to the 2021 Symposium.
- If you choose to participate, you will receive a zoom link that will allow you to enter the conference in real time over the same two days April 3 and 4, 2020.
- You will receive that zoom link prior to the Symposium which you will use to access the webinar. You will login to the webinar with this link and "sign-in" virtually so that our accreditors will have a complete list of those physicians participating.
- The agenda has been slightly revised which will accommodate the transition between speakers. That agenda is available at [Staabsymposium.com](http://Staabsymposium.com).
- You will still have the opportunity to ask questions of the speakers in this live webinar format. Although you will be free to ask questions throughout the lecture, please understand we will save questions (that will be relayed through a moderator), until the completion of the speaker's presentation.
- To meet the AOA and AMA accreditation requirements you will receive a link, following completion of the activity, to an evaluation and self-attestation which **MUST** be completed on or before April 10, 2020 in order to receive your CME credit for this live event. As a reminder, physicians should only claim credit commensurate with the extent of their participation in the program.

Although we are saddened by not being able to provide an in-person event, we are excited to be able to offer this content in a virtual conference which will meet the needs of our registrants while protecting our guests during this time of uncertainty.

If you have any questions about the above or the virtual event, please don't hesitate to reach out and we'll make sure you are prepared for the VIRTUAL Richard C. Staab D.O. Memorial Symposium 2020.

Sincerely,

**The 2020 Staab Symposium Planning Committee**
